

B3108 Winsley Hill Parking Restrictions Proposal May 2022

Wiltshire Highways have produced a proposal to restrict parking by the introduction of double yellow lines as per the plan attached.

We expressed concern at the LHFIG meeting on 25th April that the extent of the restriction was insufficient. Our original request was for the restriction to extend to the Murhill Turn.

This will be reviewed.

According to the changes for funding (described in the LHFIG meeting report) the cost of the implementation of this will need to be shared by the PC with LHFIG.

The total cost will be £3,000 which includes advertising and lining.

Note: several area schemes can be included within one advertisement. If we went ahead with the Old Village (separate agenda item) this will be included within the advertisement. There are no other similar group schemes with which to share the advertising cost.

Proposal: To seek an extension to the lining scheme and accept the cost of £1500 being the PC share.
